

Meta Interview Handbook

1. Company Overview

Meta (formerly Facebook) focuses on social connection and the metaverse. Its culture is characterized by “Move Fast” and “Build Social Value.”

2. Hiring Process (2025-2026)

- **Recruiter Screen:** 30 mins.
- **Technical Phone Screen:** 45 mins (CoderPad), 2 coding questions.
- **Full Interview Loop:** 4-5 rounds:
 - **Coding Rounds (2):** 2 problems in 45 mins (Speed is critical).
 - **AI-Enabled Coding (1):** Multi-part problem with optional AI assistance.
 - **System Design/Product Design (1):** Scalability or feature design.
 - **Behavioral (1):** Conflict resolution and ownership.

3. Data Structures & Algorithms (DSA)

Meta interviews are known for their high speed. You are expected to solve 2 Medium problems in 45 minutes.

Frequently Asked Problems

Topic	Problem Example	Difficulty
Arrays/Strings	Product of Array Except Self, Valid Palindrome II	Medium
Graphs/Trees	Lowest Common Ancestor, Number of Islands	Medium
Heaps/Queues	K Closest Points to Origin	Medium
Sliding Window	Minimum Window Substring	Hard

4. Machine Learning & AI

- **ML Design:** Designing a news feed ranking system, ad click prediction.

- **AI Infrastructure:** Designing scalable training pipelines for LLMs.
- **Agentic AI:** Questions on building AI agents for social interaction.

5. System Design

- **Product Design:** Design Instagram, Design WhatsApp.
- **System Design:** Design a News Feed, Design a Distributed Storage System.
- **Focus:** API design, data modeling, and scaling to billions of users.

6. Behavioral Questions

- “Tell me about a time you had a conflict with a teammate.”
- “Describe a project you led from start to finish.”
- “What was the most difficult technical challenge you faced?”

7. Online Assessment (OA)

- **Format:** 90-minute proctored round with 4 stages of a single problem.
- **Platform:** Internal Meta tool.

8. Preparation Tips

- Practice speed: Solve LeetCode Mediums in under 20 minutes.
- Focus on “Product Design” for E4 and “System Design” for E5+.
- Understand Meta’s “Move Fast” culture and how it applies to engineering.
